Abstract

Management is nothing apart from the great process to regulate both inside and outside of any sort of activity which might be either active or in-active. On the other hand, it definitely enables education right from its understanding to the best execution for our benevolent students in a befitting manner. In the same light students may develop this process through the entire managerial hierarchy where business leaders, administrators, managers, followers, sub-ordinates and the business operators might be comprehensively benefited at the end of the day. Moreover all the business leaders have been refining this platform of education in such a manner where students shall be able to hold the high-end occupational standing through utilizing their affluent knowledge regarding management. Apart from the same students will be able to understand about the most progressive initiative of leaders they who are in a prior position to lead the education for the global demand and they feel that it has to be inserted amongst the students just not only to score marks but to drive their professional integrity along with their leaders to find out the needful solution to enrich an organization. This is how both administration and management science will definitely be modified and it shall be the most pivotal learning curve for the students to enhance the demand of productive education in the near future. So it might be said that “Management Education” shall be ensuring the meticulous stand of learning along with the constructive future for the students. It means management covers planning, initialization of various thoughts, operation, implementation of thoughts, noticeable execution. This is how people can reach their aspired destination through their appropriate decision making. Similarly education covers learning, ardent interest, self-desire, self-confidence, self-esteem, self-belief and most notably the potential of self-assessment in deed. Therefore both the combination shall be definitely very conducive to combine both management and education to discover the grand avenue of exclusive communal harmony.

Keywords: Educational elegance; Management research; Educational benefaction; Management prospect

Introduction

According to the detailed statistics this concept of “Management” rates an overall impact and it is evaluated on the basis of both internal and external paradigm either of an institute or of an organization in deed. That is why all the trained leaders do ensure its impact and the exclusive effectiveness not only to generate the additional revenue but to hold the successful business expansion for the long period of time. Angelito Calma and Martin Davies have told in one of the published articles entitled: “Critical Thinking in Business Education: current outlook and future

prospects” that, it is a track in investigating all the literature which is related to critical thinking and business education in a survey to publish the same. So it is a great matter for the leaders to specify certain criteria which are as follows:

- Conceptual Change: It matters a lot because each student and the leaders shall have to be concerned about the very conception to lead the entire paradigm of an organization in a befitting manner. Because this managerial growth shall definitely be very conducive for an outstanding organizational elevation.
